

How to Install Quick Link Client or Laptop Client

Applies to: ArchiveOne® Enterprise (Policy); Topic Last Modified: 8 August 2010.

Note

This topic explains how to install either the Quick Link Client or Laptop Client for ArchiveOne Enterprise (Policy).

Before You Begin

Before you perform the procedure in this topic, be aware of the following:

- Must have proper user permissions to install software on the client PC.
- Must have access to the Archive One server install location.

Procedure

To install the Quick Link Client

1. Use **Start**->Run to access ArchiveOne Enterprise's installation path which default to:
"\\ArchiveServerName\C\$\Program Files\C2C Systems\Archive One".
2. Locate & run the **QLC Installer** "ArchiveOne Quick Link Client.msi" or the **Laptop Client Installer** "ArchiveOne Laptop Client.msi".
 - You'll be clicking **Next** through this Wizard, only making optional changes to one screen.
3. The second screen of the **Wizard**, Customer Information, can optionally be modified to contain a specific User Name and Organization.
 - These two values are only visible in this Wizard; setting this screen is entirely optional
4. Click the **Install** button to install the software.
5. Finish the wizard.

For More Information

For assistance with other features of ArchiveOne Enterprise (Policy), see the other ArchiveOne Enterprise (Policy) documentation available from C2C:
